Certification of Internship at Eberswalde University for Sustainable Development

To whom it may concern,

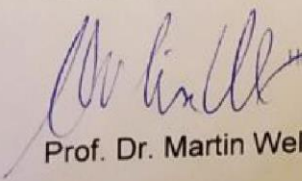

with this letter I certify that our colleague from Tashkent Chemical-Technological Institute, Ms Guzal Eshchanova, has successfully accomplished her internship at the 'Centre for Econics and Ecosystem Management' at the Faculty of Forest and Environment of Eberswalde University for Sustainable Development (HNEE). Her internship was part of the project *Food security and livelihood improvement through agroforestry* (eAGROFORST), which is funded by the German Ministry of Education and Research from 2017 to 2019.

The internship of Guzal Eshchanova lasted from September 20th, 2018 to November 20th, 2018, with a total of 288 working hours.

During her internship, Ms. Guzal Eshchanova prepared a research proposal for a Ph.D. project on agroforestry. During her stay, she worked in close collaboration with colleagues working at the Centre for Econics. Moreover, she gained insights into the teaching activities of our faculty, and helped to extend the collaboration between the Tashkent Chemical-Technological Institute and HNEE.

Ms Eshchanova has accomplished her task with great commitment, while providing useful insights for us about her topic in Uzbekistan. I thank her for her valuable contributions and wish her great success for her future ambitions.

Sincerely

Prof. Dr. Martin Welp
