

MY FAVOURITE SPORT IS FOOTBALL,,

My favorite sport is football

There are many outdoor games. However, among all the outdoor sports, football is my most favourite game. This game is famous all over the world. Football is a game played by eleven players on each side. There is one referee and two linesmen. In Uzbekistan football is played with great fervour.

Even though we do not qualify for the World Cup matches, people here are quite passionate about this wonderful game. In Tashkent there are many football grounds. Among them Bunyodkor Stadium is very big and well-known all around the world. I play football in my school.

I am part of the school primary team. I am a supporter of Real Madrid Club, which happens to be the oldest club in Spain. I am also a devoted supporter of Portugal. Portugal won the soccer world cup for five years. Large number of spectators comes to see football matches.

This game is a physical game and played mainly with the legs and head. Only the goalkeeper is allowed to catch the ball with his hands. Football, because of the thrill and excitement it offers, is my most favourite game.
