

ACADEMIC DEGREES

An academic degree is the state of recognized completion of studies at a school or university. A diploma is generally issued in recognition of having satisfactorily completed the prescribed course of study.

The four types of college degrees include an associate's degree, bachelor's degree, master's degree and finally a doctor of philosophy

These degrees are based on various educational programs and curricula. Each type of these degrees plays its own set of critical roles in career advancement, intellectual fulfillment and personal satisfaction for different people. The degree you choose will largely be based on the type of career you wish to have, and what the requirements are for the job you want.

*Master
degrees*

M.A. (Master of Arts)

M.S. (Master of Science)

M.Res. (Master of Research)

M.Phil. (Master of Philosophy)

L.L.M. (Master of Laws)

*M.B.A. (Master of
Business Administration)*

MASTER DEGREES

M.A. (Master of Arts) or M.F.A. (Master of Fine Arts) – It can cover various graduate studies. These include education, communication, social sciences and music.

M.S. (Master of Science) – This degree could be earned in a wide range of science, health and even social science professions.

Major focus is on research, though a few courses can have a combination of research-based courses and class-based courses.

M.Res. (Master of Research) – It's designed to offer training on how to carry out a research.

MASTER DEGREES

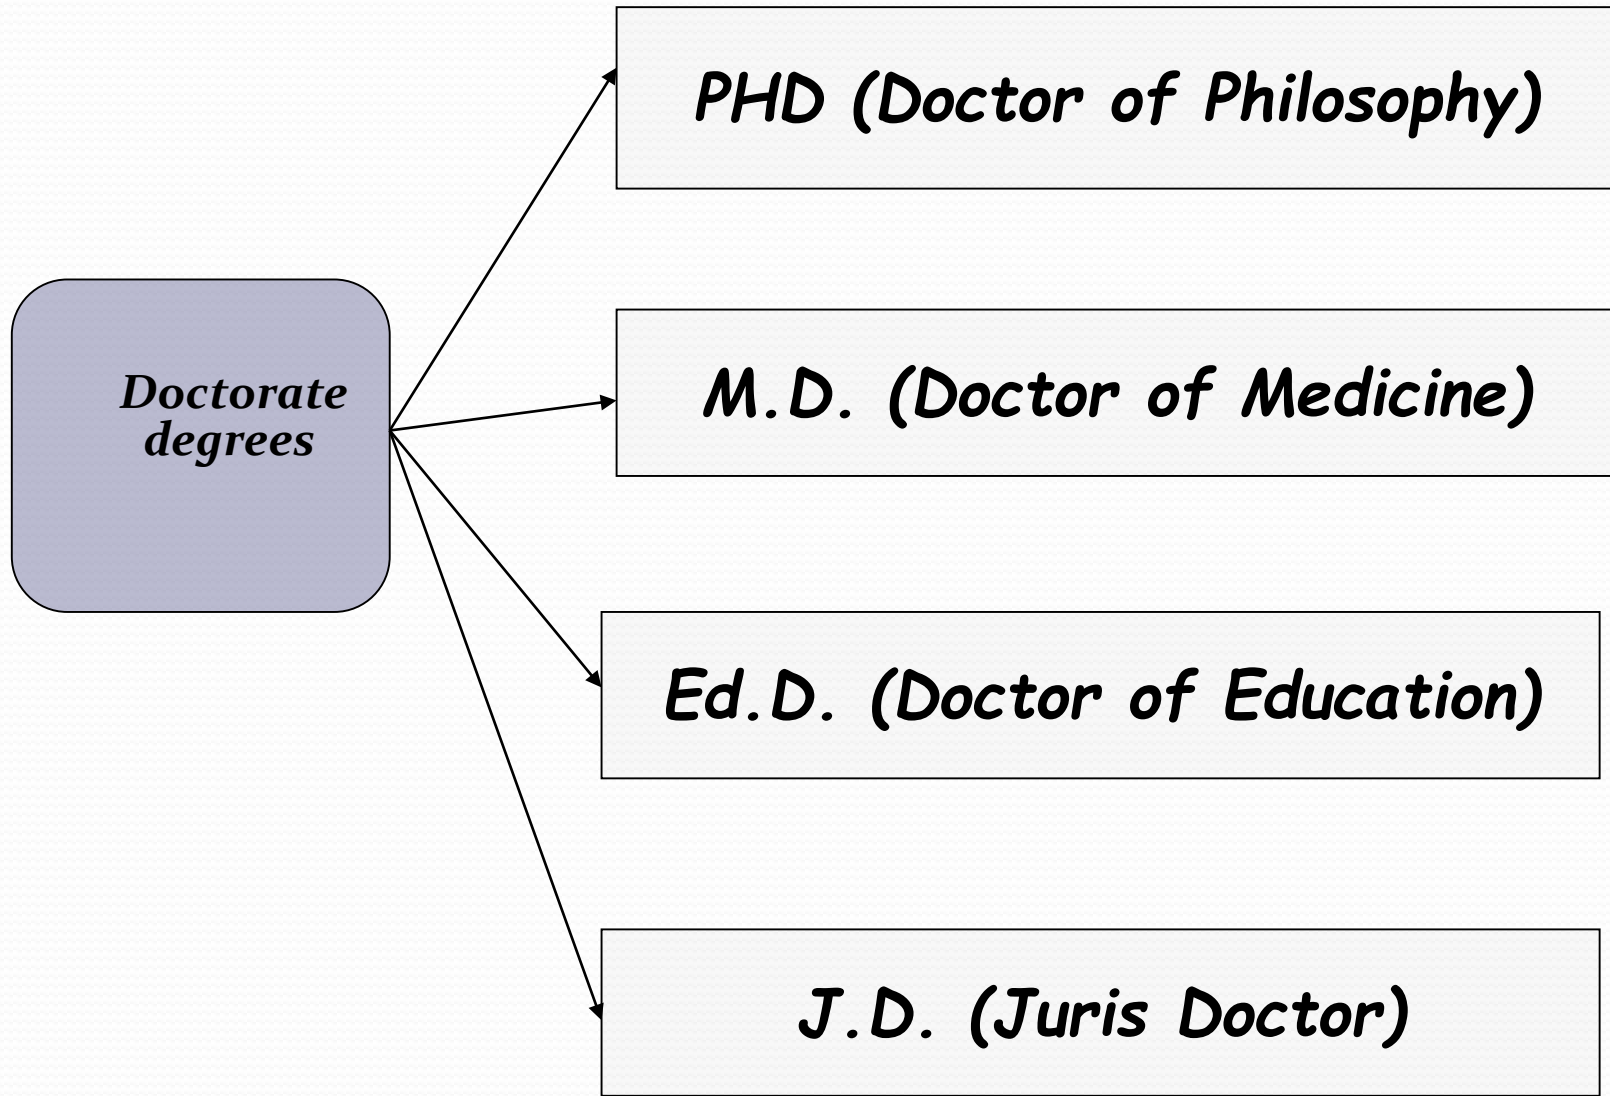

M.Phil. (Master of Philosophy) – It's a research-only degree and is often a precursor to PhD. Most PhD students register for this degree in their initial 1-2 years of study and must produce a report after this period to change their registration status to that of a PhD student.

LL.M. (Master of Laws) – This degree usually takes one year as a full time program or 2-4 years as a part time course.

M.B.A. (Master of Business Administration) – These degrees are often designed for management professionals with some experience. MBA focuses on creating future successful business leaders.

DOCTORATE DEGREES

PhD (Doctor of Philosophy) – These are research-based doctorate degrees often awarded to recognize peer-reviewed published academic research.

M.D. (Doctor of Medicine) – This is the most advanced degree for medical students and must be completed to professionally practice medicine. M.D. students often choose a specialty area.

Ed.D. (Doctor of Education) – This is the highest level degree of education in the education field. People who hold this degree often work in administrative, research or academic positions related to education.

DOCTORATE DEGREES

J.D. (Juris Doctor) – This degree is the most advanced one available to lawyers in the US. A thesis is typically not required in J.D. degree program. In this stiff competition of job opportunities and the eligibility of qualifying for a given profession, these degrees do play an important role.
