Map of Ethnic Groups in Vietnam

Vietnam's Religions

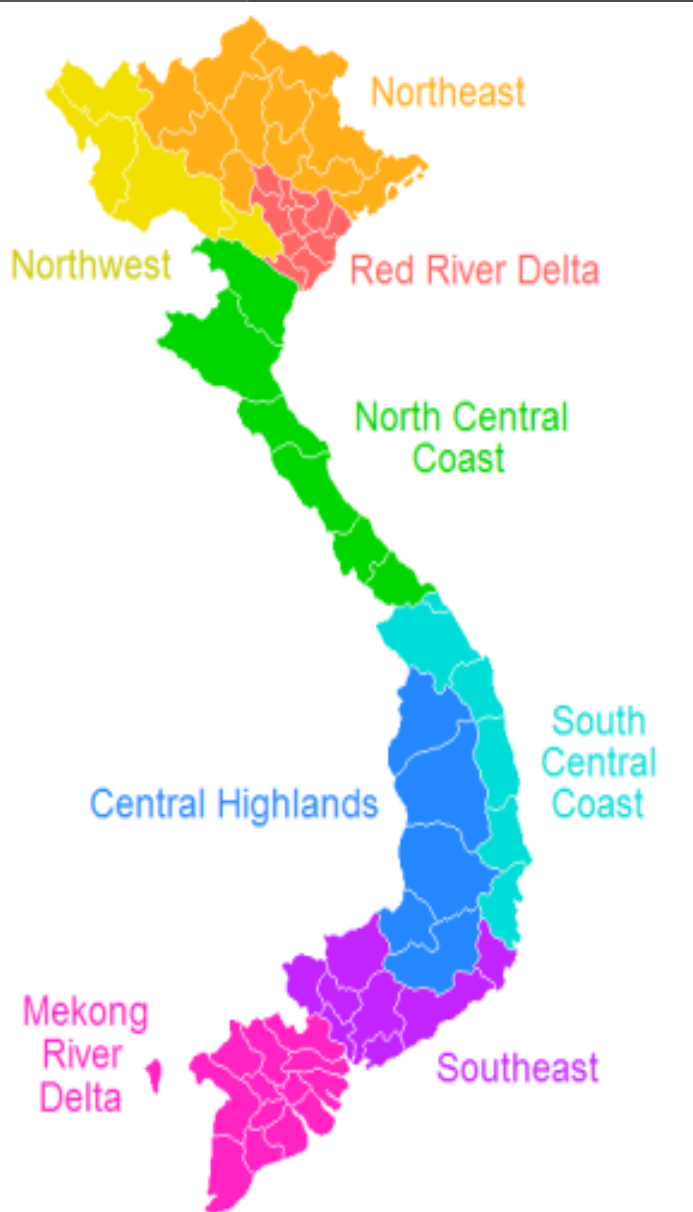

3. Ethnic and Religions

⊙ A multi-ethnic country with 54 ethnic groups

⊙ About 6 religions

GEOGRAPHY

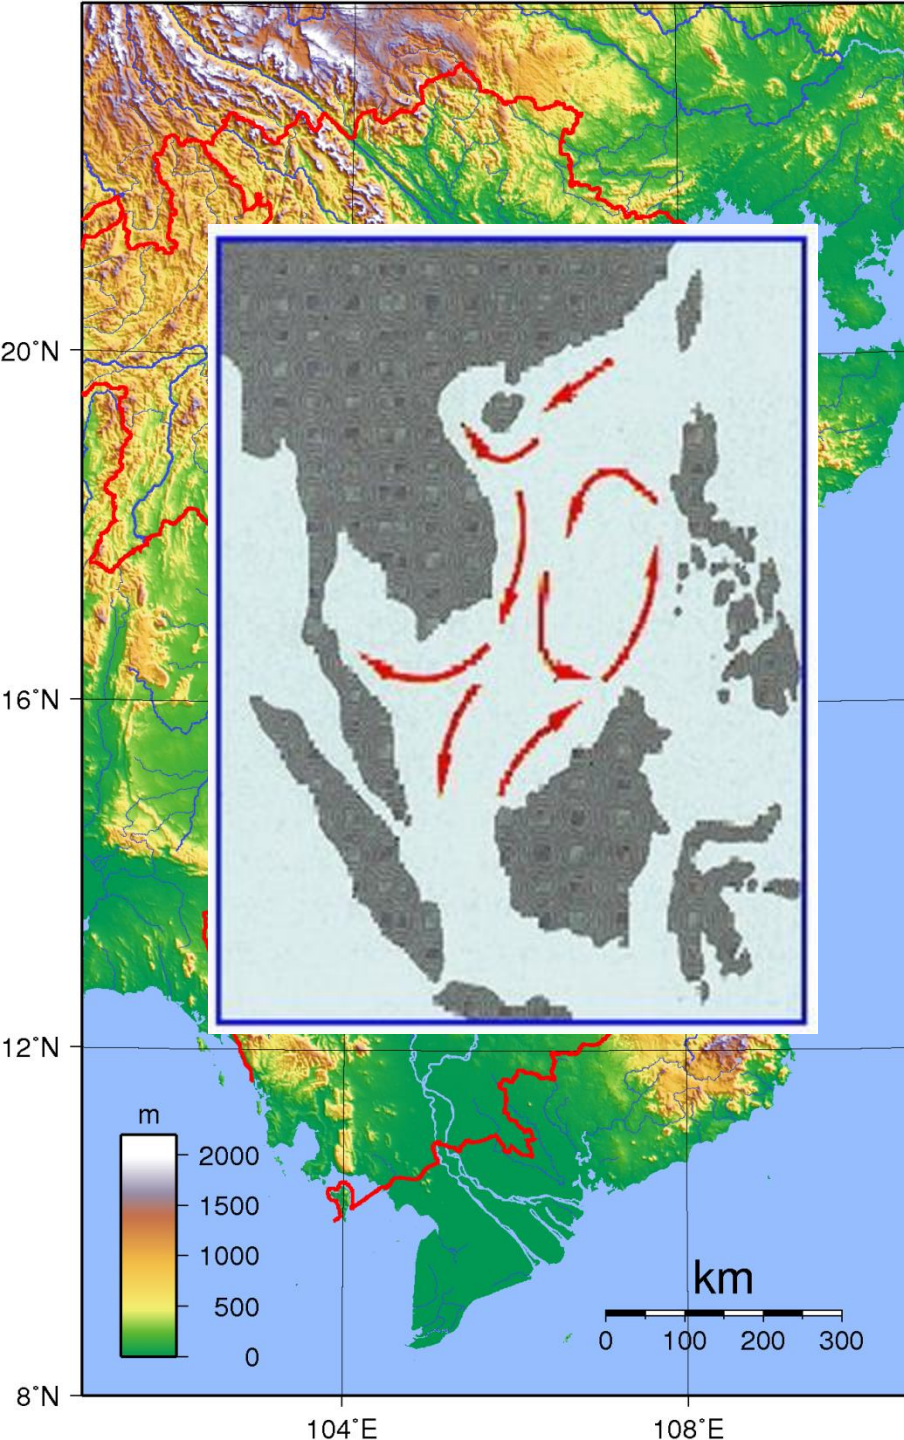

- 8 regions, 64 provinces
- 2 main deltas: Red River Delta and Mekong River Delta
- The highest mountain: Phanxipang (3,143 m); a low-level plain no more than 3 meters above sea level at any point
- Mountains: accounting 40% of the country's land area; and tropical forests: covering around 42%
- The Vietnamese climate: varying considerably from place to place because of differences in latitude

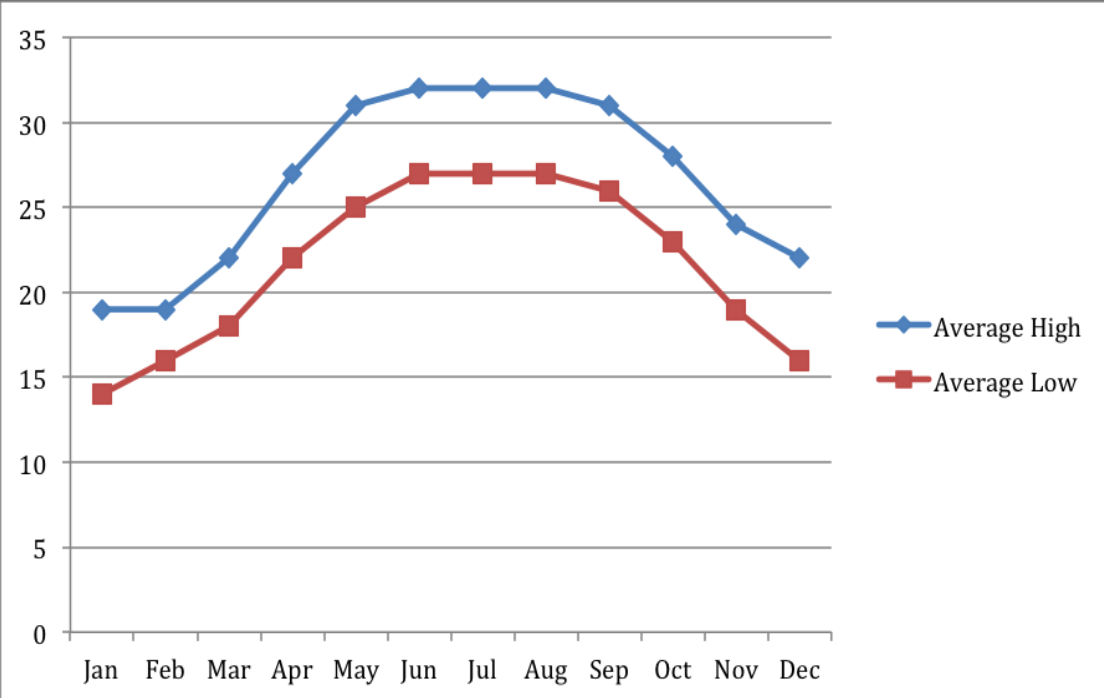

CLIMATE

- Varying from the sub-tropics in the North to the tropics in the South depending on elevation and type of landscape.
- The humidity is high, with average ranging around 84% a year.
- The average precipitation: 1500 - 2000 mm/year
- The average temperature: 22 – 27⁰C

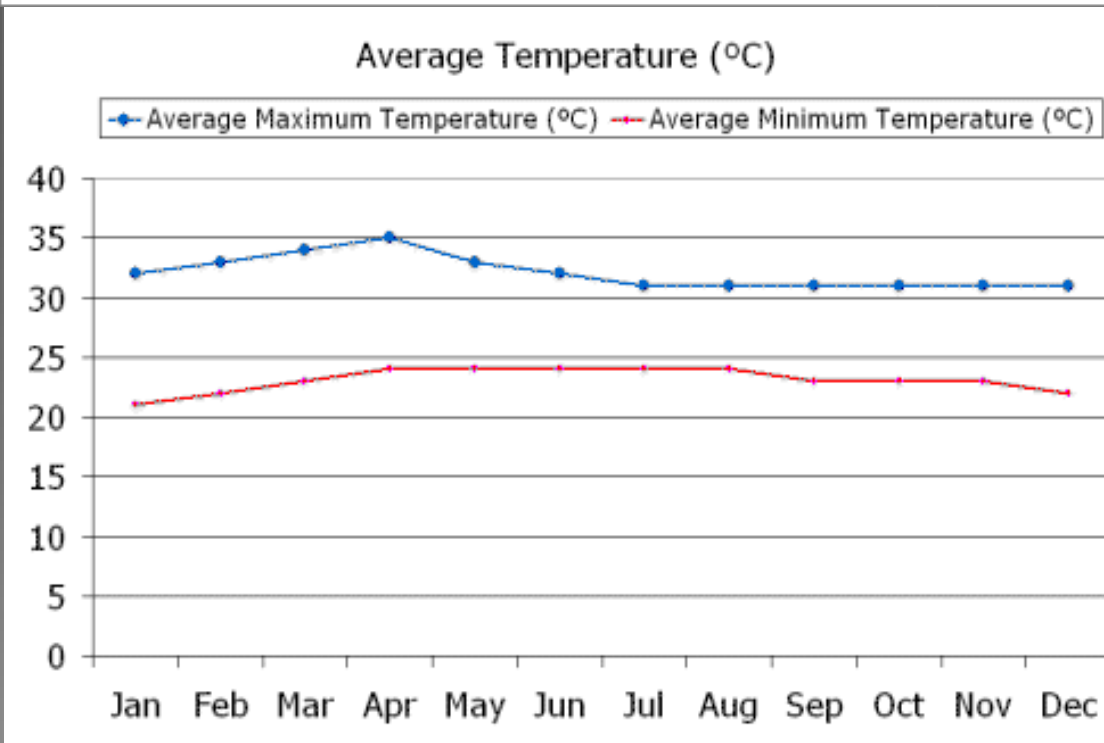

CLIMATE

- A tropical monsoon type of climate;
- From May-Sep the south monsoon → south to southeasterly winds.
- From Oct-April, the north monsoon with northerly to northeasterly winds affecting the country.
- The monsoon winds blowing from the northeast along the China coast and across the Gulf of Tonkin, picking up considerable moisture

○ Northern: 4 seasons (spring, summer, autumn, winter)

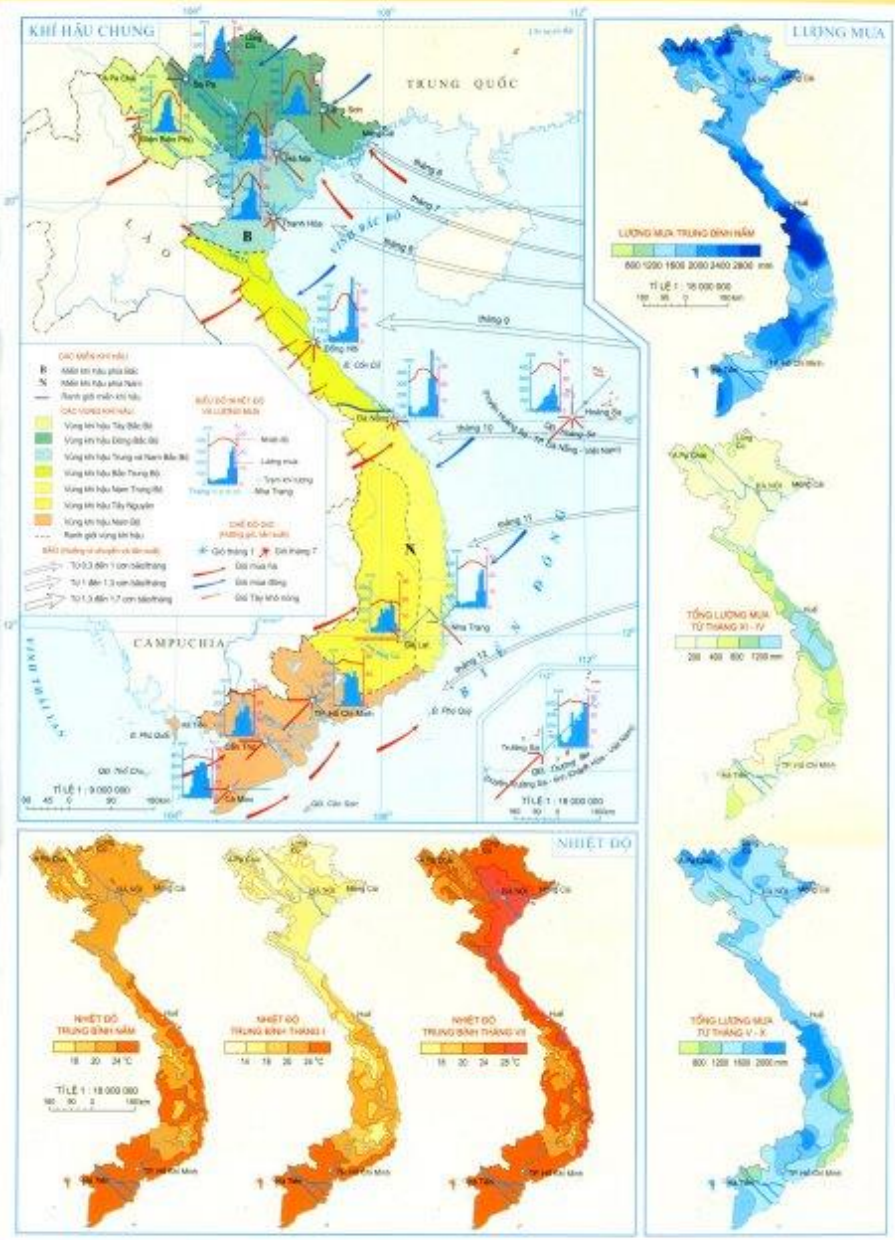

○ Southern: 2 seasons
 Dry season (Dec-Apr)
 Rainy season (May-Nov)
