The screenshot shows a web browser window with several tabs. The active tab is titled "Damage and Destruction of Irrig...". The browser address bar shows the URL: link.springer.com/chapter/10.1007/978-3-030-85236-8_38. The page header includes the Springer Link logo, a "Log in" button, and navigation options like "Find a Journal", "Publish with us", and "Search".

The main content area features a red banner with the text "Proceedings of MPCPE 2021 pp 419–427 | Cite as". Below this, the chapter title "Damage and Destruction of Irrigation Canals During Earthquakes and Recommendations for Their Strengthening" is displayed. The authors are listed as "Mashrab, Akhmedov, Javlon, Yarashov & Doniyor Juraev". The text indicates it is a "Conference paper" first online on 30 January 2022, with 179 accesses and 1 citation. It is part of the "Lecture Notes in Civil Engineering" book series (LNCE, volume 182).

An "Abstract" section begins with the text: "In the complex of water management construction, one of the central links is irrigation canals, through which the required volume of water is transported from the water source to the place of its consumption. The timely delivery and supply of water to its destination largely depends on the safety of the irrigation system. Meanwhile, in areas prone to seismic effects, these types".

On the right side, there is a "Buy Chapter" section. It includes a button "Access via your institution" and a table of purchase options:

Format	Price
Chapter	EUR 29.95 <small>Price includes VAT (Uzbekistan)</small>
eBook	EUR 117.69
Softcover Book	EUR 149.99
Hardcover Book	EUR 149.99

Below the table, it states "Tax calculation will be finalised at checkout" and "Purchase price for personal use only".

The browser's taskbar at the bottom shows several open PDF files, including "e3sconf_conmech...", "Билдиришнома.PDF", "e3sconf_transsiber...", "e3sconf_form2018...", and "e3sconf_form2018...". The system tray shows the time as 16:12 on 16.11.2022.
